Alexandros Kaminas

kaminas.alex@gmail.com | akaminas.github.io | ORCID 0000-0002-7928-651X

Education

University of Groningen, Groningen, Netherlands Oct 2025 – Present
PhD Student, The Evolutionary Consequences of Isolation

University of Montpellier, Montpellier, France Sep 2022 – Jun 2024
MSc, Applied Ecological and Evolutionary Sciences
Graduated 2nd in class.

University of the Aegean, Mytilene, Greece Sep 2017 – Dec 2021
BSc, Marine Science
Graduated 1st in class (Top 1%).

Honors & Awards

EVOLVE Fellowship Recipient Oct 2025
EU EVOLVE MSCA COFUND

IDIL International Student Scholarship Aug 2022
University of Montpellier

Academic Excellence Award Jan 2022
Greek State Scholarships Foundation (IKY)

Valedictorian Dec 2021
University of the Aegean; graduated top of the class and delivered the valedictory address

Research & Professional Experience

Hydrographic Service, Hellenic Navy, Athens, Greece Oct 2024 – Sep 2025
Meteorology & Oceanography Officer (METOC)
Worked with oceanographic models, provided forecasts, and processed acoustic data for submarine surveys.

UMR MARBEC, Montpellier, France Jan 2024 – Jun 2024
Research Intern
Studied regime changes and community reorganization under climate change. Applied stochastic modelling and multi-effects models.

UMR MARBEC, Sète, France Jan 2023 – Jun 2023
Research Intern
Applied n-dimensional hypervolume methods to assess fish community diversity. Conducted phylogenetic inference and trait imputation.

UMR MARBEC, Sète, France Sep 2021 – Dec 2021
Erasmus Research Intern
Analyzed functional diversity under global change using statistical methods.

Hellenic Centre for Marine Research, Athens, Greece Jun 2020 – Sep 2020
Research Intern
Worked on taxonomy, stomach-content analysis, and diet indices of commercial fish species. Contributed to a peer-reviewed publication.

Academic Tutor, Mytilene, Greece Jan 2018 – Jun 2021
Tutor in Biology, Geology, Physics, and Chemistry

Supported students in coursework, thesis preparation, and academic skills.

Academic Roles & Leadership

Etienne Group, University of Groningen Oct 2025 – Present
Research Group Member
Member of the Theoretical & Evolutionary Community Ecology group within the TRÊS cluster. Contribute to theoretical modelling on community assembly and evolutionary dynamics.

Van Doorn Group, University of Groningen Oct 2025 – Present
Research Group Member
Member of the Evolutionary Systems Biology group within the TRÊS cluster. Work on modelling evolutionary processes and system-level responses.

SDSN Youth Greece May 2025 – Present
Network Coordinator
Coordinate collaborations and projects advancing the Sustainable Development Goals.

Political Economy of Sustainable Development Lab, University of Athens Jan 2025 – Present
Research Associate
Work on climate-change reporting, data visualization, and scientific storytelling.

Université de Montpellier Jan 2024 – Present
International Student Ambassador
Promote study opportunities and contribute to international student outreach, teamwork, and public speaking activities.

SDSN Youth Greece Nov 2023 – May 2025
Sustainability Research Fellow
Managed sustainability projects and co-authored publications on the Sustainable Development Goals.

WGCOMEDA Working Group 2021 – Present
Working Group Member
Contribute to comparative analysis of Mediterranean and Atlantic ecosystems, biodiversity, and resilience.

Hellenic Navy, Athens – Poros, Greece Sep 2024 – Sep 2025
Administration Officer
Managed databases covering more than 600 trainees, modernized administrative systems using Python, and handled sensitive headquarters data.

iSea Environmental Organization 2018 – 2023
Volunteer Research Fellow
Monitored invasive species and elasmobranchs and co-authored peer-reviewed publications.

Marine Remote Sensing Club, Lesvos, Greece 2018 – 2019
Club Member
Participated in the Plastic Litter Project using satellite imaging.

Supervision & Academic Service

University of Groningen, TRÊS Group 2026
MSc Research Supervisor
Supervised an MSc research project, *Modelling Trait Evolution in Mutualistically Interacting Networks.*

Netherlands Society for Theoretical Biology (NVTB) 2026
Financial Auditor
Conducted the financial audit of NVTB's 2026 finances as part of the society's financial oversight and accountability process.

Ecological Modelling Sep 2026 – Present
Peer Reviewer
Reviews manuscripts on ecological and eco-evolutionary models.

Heliyon Jan 2025 – Present
Peer Reviewer
Reviewed publications on environmental modelling and mathematics.

Projects & Initiatives

SDG4U – Sustainable Development Goal 4 for Universities 2024 – 2025
EU-funded Higher Education Project
Contributed to research, writing, and dissemination activities. Project team page.

Marine Alien Species Population Density in Greece and Cyprus 2019 – 2023
Citizen Science Project
Contributed to monitoring alien-species population density in Greece and Cyprus.

Is it Alien to you? Share it!!! 2018 – 2023
Public Engagement & Citizen Science Project
Contributed to public engagement and alien-species monitoring under a research permit from the Greek Ministry of Environment.

MECO Project 2018 – 2023
Collaborative Research Network
Contributed to a collaborative network for elasmobranch sightings across the Mediterranean.

Conference Presentations

NVTB Annual Schoorl Meeting, Schoorl, Netherlands Jun 2026
Oral Presentation
Isolation as a dynamic driver of eco-evolutionary change.

16th AFH Colloquium, Sète, France Jun 2024
Oral Presentation
Presented research on the effects of climate and fishing on Mediterranean communities using catastrophe theory. *Only MSc student project selected for oral presentation.*

Hydromedit, Mytilene, Greece 2021
Poster Presentations
Presented two posters on rare-species monitoring through citizen science and the diet composition of *Dentex maroccanus*.

Kaminas, A., et al. (2022). Filling gaps via citizen science: *Phyllorhiza punctata* in Cyprus. *BioInvasions Records*, 11(3), 667–675. doi:10.3391/bir.2022.11.3.09

Giovos, I., et al. (2021). Checklist of Chondrichthyans in Cyprus. *Fishes*, 6(3), 24. doi:10.3390/fishes6030024

Giovos, I., et al. (2020). First record of Atlantic spadefish in the Mediterranean. *BioInvasions Records*, 9(1), 89–95. doi:10.3391/bir.2020.9.1.12

Skills

Programming & quantitative methods
C++ (advanced), Python (advanced), R (advanced), MATLAB (basic)

Spatial analysis & imaging
QGIS/ArcGIS (proficient), Image-Pro V9

Languages
Greek (native), English (C2), French (C1)

Laboratory
Sample treatment for pollution analysis, image-based identification
